AS/NZS 2161.1:2016

Australian/New Zealand Standard

Occupational protective gloves

Part 1: Selection, use and maintenance

Superseding AS/NZS 2161.1:2000
This Joint Australian/New Zealand standard was prepared by joint Technical Committee SF-023, Occupational Protective Gloves. It was approved on behalf of the Council of Standards Australia on 22 April 2016 and by the New Zealand Standards Approval Board on 4 May 2016.

This standard was published on 19 May 2016.

The following are represented on Committee SF-023:
Australian Chamber of Commerce and Industry
Certification Interests (Australia)
Griffith University, Qld
National Safety Council of Australia
Safety Institute of Australia
University of Otago, New Zealand
Worksafe, New Zealand

Keeping standards up to date
Standards are living documents which reflect progress in science, technology, and systems. To maintain their currency, all standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current standard, which should include any amendments which may have been published since the standard was purchased.

Detailed information about joint Australian/New Zealand standards can be found by visiting the standards webshop in Australia at www.saiglobal.com or Standards New Zealand’s website at www.standards.govt.nz.

For more frequent listings or notification of revisions, amendments, and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national standards organisation.

We also welcome suggestions for improvement in our standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to either the Chief Executive of Standards Australia or the New Zealand Standards Executive at the address shown on the title page.

This standard was issued in draft form for comment as DR AS/NZS 2161.1:2015.
Australian/New Zealand Standard

Occupational protective gloves

Part 1: Selection, use and maintenance

Originated in Australia as AS Z4—1952.

PREFACE

This Standard was prepared by the Joint Australia/New Zealand Standards Committee SF-023, Occupational Protective Gloves, to supersede AS/NZS 2161.1:2000.

The objective of this revision was to include a new appendix explaining conformity assessment issues relating to the selection and purchase of gloves, as well as updating text to reflect current practices and terminology.

The term ‘informative’ has been used in this Standard to define the application of the appendix to which it applies. An ‘informative’ appendix is only for information and guidance.

1 SCOPE
This Standard sets out recommendations to achieve hand protection against hazards experienced in the workplace. It gives guidance on the following:

(a) Selection Aspects to be taken into account when determining the type of glove appropriate to the particular usage and the envisaged hazards as well as disposal of the gloves.

(b) Use Practices to be followed for the different types of gloves.

(c) Maintenance Safe and hygienic practices to be followed in the decontamination/cleaning, storage and reissue of gloves to maintain the performance as appropriate.

The Standard does not include requirements for the performance or testing of gloves, as these are specified separately in other parts of the AS/NZS 2161 series, AS 2225, AS/NZS 4011.1, AS/NZS 4011.2 and AS/NZS 4179 as appropriate.

2 OBJECTIVE
The objective of this Standard is to enable users of protective gloves to select gloves suitable for their work and to use and maintain them in a manner that ensures the glove’s function is not compromised.

3 REFERENCED DOCUMENTS
The following documents are referred to in this Standard:

AS
2225 Insulating gloves for electrical purposes

AS/NZS
2161 Occupational protective gloves
2161.2 Part 2: General requirements
2161.3 Part 3: Protection against mechanical risks
2161.4 Part 4: Protection against thermal risks (heat and fire)
2161.5 Part 5: Protection against cold
2161.7.1 Part 7.1: Protection against cuts and stabs by hand knives—Chainmail gloves and arm guards
2161.7.2 Part 7.2: Protection against cuts and stabs by hand knives—Gloves and arm guards made of material other than chainmail
2161.8 Part 8: Protection against ionizing radiation and radioactive contamination
2161.10.1 Part 10.1: Protective gloves against chemicals and micro-organisms—Terminology and performance requirements
2161.10.2 Part 10.2: Protective gloves against chemicals and micro-organisms—Determination of resistance to penetration
2161.10.3 Part 10.3: Protective gloves against chemicals and micro-organisms—Determination of resistance to permeation by chemicals
AS/NZS 2161.1:2016 Occupational protective gloves - Part 1: Selection, use and maintenance
